Type	Cheese Graters

## Notes & Details

Grate cheese for your establishment's signature dishes with this Estella CG112NB electric hard cheese grater! Made with a durable aluminum alloy body and a stainless steel grater roll, this item is designed to grate hard cheese for pizzas, breakfast foods, sandwiches, or baked goods for food stands, restaurants, and commercial kitchens, and it can also be used with stale bread to make delicious breadcrumbs. This cheese grater grates up to 3.3 lb. of cheese per minute and is made with a 5 1/2" x 3 1/8" top opening ideal for larger blocks of cheese, as well as a 304 stainless steel collection bowl with a 1 qt. capacity.

This hard cheese grater features a compact design for tabletop or countertop use with non-skid feet. It's easy to operate with simple on / off button controls and is designed not to begin grating until the pressure handle is pushed down in the proper position for added safety. This 1 1/2 hp cheese grater features a 5 5/8' power cord and a green power indicator light that confirms the machine is powered on. It also features a circuit breaker, requires a 110V electrical connection for operation, and offers an output of 1,100W and 900 RPM. It's an ideal tool for processing cheese in your establishment for ultimate freshness!
