- 85 lb. oil capacity

Certifications

5-15P

CSA, US and Canada

CSA Sanitation

Technical Data

Plug Type	NEMA 5-15P
Power Type	Electric
Pump Type	2-Way
Type	Oil Filter Machines

Notes & Details

Make light work of filtering your oil with this Fryclone fryer oil filter machine. This unit extends the usable life of your oil by removing sediment, carbon deposits, fatty acids, and other agents that contribute to oil breakdown and poor taste. Regularly filtering your oil using this fryer filter lessens your overall oil consumption, reduces costs, and helps you produce consistently high-quality fried foods.

This model provides easy, straightforward operation. It boasts an impressive 85 lb. oil capacity, and it has an efficient 2-way pump for effective draining and refilling. It comes with a 60" hose and a wand for maximum reach and comfort during use. This keeps your hands clean and safely out of the way while still offering optimal control as you filter your oil. Plus, the wand handle does not conduct heat for safe, comfortable use.

This model features a stainless steel pan and pump housing for ultimate durability and damage resistance. It is also easy to clean and maintain between uses. Thanks to its 4 casters and handle, this unit easily rolls between your fryers for use or out of the way for storage. Its low-profile tank easily fits under most fryer drains. This unit requires a 120V electrical connection, and it comes with a cord and plug.
