- Includes 3 interchangeable sieves
- Special blade rubs against the bottom and side of the sieve to increase output
- Features hooks to sit over mixing bowls

Technical Data

Capacity	5 qt.
Grid Size	1 1/2 - 4 mm
Material	Stainless Steel
Power Type	Manual
Style	Standard
Type	Food Mills

Notes & Details

Easily puree fruits and vegetables with this Garde food mill! This heavy-duty food mill features a manual crank for easy operation, allowing you to speed up your food prep time. This simple design quickly and efficiently mashes and purees cooked fruits and vegetables, making it great for high-volume use. This food mill has a durable, corrosion-resistant stainless steel body, and it boasts a 5 qt. capacity. For additional convenience, it comes with hooks to sit over mixing bowls.

This versatile food mill comes with 3 interchangeable sieves to process ingredients of different sizes. This includes a sieve with 1.5 mm holes for smooth foods like fruit sauces and tomato juice, a sieve with 2.5 mm holes for creating purees and soups, and a sieve with 4 mm holes for stringy vegetables such as root crops and cooked lettuce. Additional sizes of sieves are sold separately. This food mill comes complete with a special blade that rubs against the side and bottom of the sieve to increase output.
