Notes & Details

This Garde XL CONSBSS heavy-duty #10 NSF manual can opener with stainless steel base is perfect for everyday use! Made specifically for heavy-duty use, this can opener is NSF certified for easy cleanability and boasts a rugged cast iron construction that helps prevent rust. It will open 3,000 cans before the blade and gear need to be replaced. It can be easily mounted to your countertop with the included stainless steel base, which screws down for installation and has a plastic insert for simple height adjustment. The blade can be removed without the use of tools, making it easy to clean.

This reliable can opener makes it simple to open #10 cans and a variety of other sizes, making this item a versatile kitchen essential. It is designed to open up to 50 cans per day, with the ability to open 4-6 cans per minute. Perfect for opening cans of everything from peaches to spinach, this can opener is ideal for any commercial kitchen.
