Grid Size	3 - 8 mm
Material	Stainless Steel
Power Type	Manual
Style	Standard
Type	Food Mills

Notes & Details

Easily puree fruits and vegetables with this Garde XL food mill! This heavy-duty food mill features a manual crank for easy operation, allowing you to speed up your food prep time. This simple design quickly and efficiently mashes and purees cooked fruits and vegetables, making it great for high-volume use. This food mill has a durable, corrosion-resistant stainless steel body, and it boasts a 5 qt. capacity. For additional convenience, it comes with hooks to sit over mixing bowls.

This versatile food mill comes with 3 large interchangeable sieves to process ingredients of different sizes. This includes a sieve with 3 mm holes for general mashing, a sieve with 6 mm holes for stringy vegetables such as root crops and cooked lettuce, and a sieve with 8 mm holes for extra course product. Additional sizes of sieves are sold separately. This food mill comes complete with a special blade that rubs against the side and bottom of the sieve to increase output.
