COVID-19

GVC-1502 - Dry Steam Sanitizing and Disinfecting System

For power, portability, and versatility, the GVC-1502 dry steam cleaner is a great choice. Use it to clean a large selection of surfaces in a variety of environments, including work tables, seats, carts, beds, carpets, upholstery, desks, door handles and more.

The secret is in the ultra-hot vapor steam. Its natural properties explosively loosen dirt, grease, and grime. It doesn't just clean. It also sanitizes your work surfaces. The high heat of the GVC-1502 kills bacteria, fungus, mold, mildew and other microorganisms on contact. An assortment of cleaning tools are included to suit a range of applications.

BIOSPRAY® TOWER Sanitizer

BioSpray Tower offers powerful sanitizing and disinfecting properties for use across various applications. This includes general surfaces, food contact surfaces, industrial surfaces, and more and has been approved by the EPA for use against SARS-CoV-2, the virus that causes COVID-19.

For HVAC use, including cooling towers, BIOSPRAY TOWER is used as a preventive maintenance sanitizer designed for application to all the areas outside of the bulk water flow. Drift (small water droplets) from a contaminated cooling tower can carry Legionella and other harmful bacteria as far as two miles from your facility. That bacteria can then enter the lungs, infecting unsuspecting innocent people.

Unlike bulk water treatment, which only impacts water in contact with surfaces, BIOSPRAY TOWER works on hard surfaces to quickly kill 99.9% of Legionella. Apply liberally to exposed surfaces of towers, inside and out. BIOSPRAY TOWER will improve the overall health of the cooling so technicians can safely perform preventive maintenance. BIOSPRAY TOWER is a non-hazardous, non-regulated preventive maintenance sanitizer.

FEATURES

- Stainless steel construction
- In operation refillable water tank
- Stainless steel boiler
- Adjustable dry steam volume
- Chemical-injection
- Multiple cleaning tools
- Integrated vacuum (only on the 1502-VAC model)

GVC-1502: Dry steam cleaner, includes various accessories, and soap container **Call for Price**

93-A03368: Fogger attachment (not included)..... **Call for Price**

BIOSPRAY-TOWER: BIOSPRAY TOWER sanitizer and disinfectant solution kills 99.9% of Legionella, on hard, non-porous surfaces. 5 gallon (19L) container. **Call for Price**
