

MANUAL GREASE TRAPS WITH BACTERIAL TREATMENT

BIO SERIES GGXM-35B

MANUAL GREASE TRAP WITH BACTERIAL TREATMENT

Superior Grease Management and Bio Treatment for Difficult Applications, including Coffee Shops, Ice Cream Stores, Confectionary Stores, and Restaurants

ASME
A112.14.3

Grease Guardian Bio Series Grease Traps incorporate proven grease trap technology with ASME/PDI approval with our unique dry solids strainer, grease level viewing window, and highly effective GB bacterial injection system.

The bacterial digesting treatment is a non-toxic, agent which helps digest fats oils and grease while eliminating odors in the kitchen wastewater.
