

Grey Acetal Swivel Branch Tee (NPTF Thread) Imperial

Pushfit fitting for connecting 2 pipe of equal connection size and a further swivel type branch connection.

Overview

John Guest swivel branch tee (NPTF thread) push-fit fitting connects two pipes or tubes of equal connection size and an additional swivel NPTF connection on the branch. Fast and simple to install, John Guest Air and Pneumatics creates an instant connection and airtight seal without the need for tools, hot works or sealing agents. Air piping systems can be set up and installed 50% quicker than traditional methods.

The unique collet locking design firmly and securely holds the pipe in place without deforming the pipe or restricting flow. Fittings are also fully demountable, reducing system downtime during maintenance and making it quick and easy to modify or extend systems.

Designed in tough engineered plastic, fittings are compatible with John Guest nylon, powder coated aluminium or LLDPE tubing, as well as copper, PEXa and other soft metal pipe materials. All John Guest fittings are manufactured and assembled in the UK.
