THE J&R EL JEFE OFFSET SMOKERS

THE WORLD'S FINEST COMMERCIAL SMOKERS, GRILLS, AND ROTISSERIES

PRODUCT DESCRIPTION

The J&R Offsets are here! Built to the same unmatched high-quality standards as all J&R products – and driven by J&R's ultra-efficient refractory-lined firebox – it will stand the test of time and offer professional-grade results to your barbecue every day. Built from high-grade rolled steel, not pre-existing tanks for added strength, it comes in 250- and 1000-gallon sizes. 500-gallon and custom configurations can also be built to meet your needs! Comparably priced to other commercial offset smokers, we deliver our beautiful and ultra-durable models, including custom units, in months not years. J&R Offsets are created for pitmasters who love hand-perfected barbecue – and a great show – that stands the test of time.
