Notes & Details

Rural countryside meets urban city with this Lancaster Table & Seating industrial backless bar stool with bleached oak finish! This bar stool's distressed finish and weathered texture combine with its sleek, square seat to add a rustic element with contemporary flair to your establishment. It features the natural look of wood with rugged metal accents for added visual appeal. At an ideal height for both bar and raised table seating, this bar stool is a versatile option for any brewery, winery, or restaurant.

This bar stool's sturdy steel frame provides unmatched durability in your dining room. It can hold up to 350 lb. of weight thanks to the metal frame and supports under the seat. The seat and legs are made of solid beechwood, which stands up better to daily use and is able to better resist gouging and chipping compared to other types of wood. Plus, the bleached oak finish offers the ultimate in style and is sure to complement the atmosphere of your establishment.

Foot rungs below the seat give customers a place to rest their legs. Each leg comes with an integrated glide to protect your floors from scuffing. To save you the time and hassle of assembly, this bar stool is shipped fully assembled with the seat already attached. Pair this bar stool with other Lancaster Table & Seating industrial chairs, bar stools, or tables (sold separately) to complete your dining space!
