This bar stool's sturdy metal frame provides unmatched durability in your dining room. It can hold up to 500 lb. of weight thanks to the metal frame, reinforced joints, and supports under the seat.

Additionally, the dark walnut wood grain finish on this bar stool ensures longevity through everyday wear and tear, resisting stains, scratches, and smudges. It also features a slat back design that's contoured to provide extra support to your customers' upper backs. Plus, this design gives it a unique visual appeal, making it perfect for both upscale and casual decor, as well as anything in between. This bar stool's built-in footrest gives customers a place to rest their feet, while a gold-plated, protective heel bar helps keep the frame from getting scratched. Each leg has a glide on the bottom to protect floors from becoming scuffed when the bar stools are moved. To save you money, these bar stools are shipped with the seat detached. This bar stool requires light assembly by screwing in the seat to the frame with the five included screws.
