Notes & Details

Provide your smallest guests with a place to sit with this Lancaster Table & Seating unassembled bar height restaurant wooden high chair with espresso finish! Thanks to this sturdy high chair, you can easily keep your youngest guests safe and tightly secure while they're at the bar height tables in your family-style restaurant or diner. The chair is designed to keep children comfortably restrained, which helps to prevent any injuries or accidents. This chair is intended for use by children up to 3 years of age. It is also compliant with the new ASTM F404-18 requirements so you can ensure the safety of those in it. Plus, the sleek espresso finish adds a nice visual appeal to your dining set up.

Thanks to the rounded corners, this high chair ensures that children have a comfortable place to rest their arms while they sit. This also helps prevent other guests and wait staff from injuring themselves should they brush against the chair during their visit. The lower safety bar, smaller opening on the side panels, and the crotch panel and seat belt all help secure a child in place so they can't wiggle free and fall. To save you money on costly shipping expenses, this chair ships unassembled. To assemble, all necessary hardware is included. You will also receive a double-ended Allen key with screwdriver and flat head ends as well as a regular Allen key. Make sure you can accommodate guests of all ages with this comfortable, safe high chair.
