Notes & Details

Add style and functionality to your outdoor seating area with this Lancaster Table & Seating Adirondack side table! Crafted from durable HIPS, this table is built to last. It's UV-, fade-, and weather-resistant to ensure long-lasting use and a sleek appearance. The white color effortlessly complements a variety of outdoor decor, while the Adirondack design gives it a timeless appeal that is perfect for both traditional and contemporary settings. Pair this table with other Lancaster Table & Seating Adirondack pieces (sold separately) to create a cohesive and inviting atmosphere!

This low-maintenance table is incredibly simple to clean, and assembly is a breeze with the included hardware. Plus, the hardware is rust-resistant, ensuring your table remains sturdy and stable over time. With a 300 lb. capacity, this table is perfect for holding drinks, snacks, or outdoor decorations, making it a versatile and essential addition to your patio, garden, deck, or outdoor leisure space.
