Notes & Details

Keep your umbrellas securely upright and in place with this Lancaster Table & Seating 110 lb. gray square granite umbrella base. This umbrella base is constructed of durable granite that ensures your umbrella won't blow away or tip over when it's windy outside. It's suitable for holding umbrellas with poles 1 1/2" in diameter. Plus, its 110 lb. weight allows it to be sturdy yet moveable enough to relocate if you need to use it elsewhere. Because of its heavy weight, this umbrella base needs to be lifted with caution and with the help of a second person to ensure employee safety.

This umbrella base's gray color and modern square shape are sure to add an upscale touch to your outdoor seating. Its granite construction is not easily breakable, so you can use it with confidence in a commercial setting. Plus, its compact design maximizes leg and foot space! The post can also be removed from the base for convenient storage. Two extra pole sizing inserts are included. Reach for this Lancaster Table & Seating umbrella base to upgrade your outdoor seating experience!
