Notes & Details

Provide comfortable and reliable seating for your guests with this Lancaster Table & Seating Flora resin side chair. Thanks to its sturdy yet light weight polypropylene and fiberglass resin construction, this chair can hold up to 350 lb. It features an antimicrobial surface for optimal sanitation, making it perfect for high-traffic areas. Plus, the sandy taupe color adds a touch of modern sophistication to any outdoor dining space.

This chair's intricate webbed back adds textural interest and optimal support to ensure the utmost comfort for your guests. The back design also helps promote air circulation to keep guests cool. Not only is this chair stackable for convenient storage, but it also includes protective glides to prevent scuff marks and scratches on your floors. Fully assembled and easy to clean, this chair is a hassle-free addition to your restaurant, cafe, or patio.
