## Notes & Details

Promote hygiene in your establishment with this Lavex manual soap dispenser. This high-quality dispenser features a sleek titanium finish to complement most restroom interiors and fixtures. It is coated in premium paint to maintain an attractive, high-end appearance, and it features a durable plastic construction made with recycled materials. This soap dispenser features a large 34 fl. oz. (1,000 mL) capacity to minimize the need for refills. It is manually operated with a simple push button.

This dispenser includes a front viewing window and transparent sides to easily keep track of the soap level and know when it's time to refill. It is easily refillable, and it is designed to be used with liquid soap and sanitizer only (sold separately). This dispenser is easy to install with the included mounting hardware. Plus, it includes a lock and key to prevent unauthorized access. Great for high-traffic restrooms, this reliable dispenser is perfect for quick, convenient soap dispensing.
