Certifications

Notes & Details

For even the toughest commercial jobs, choose these Lavex Pro nitrile 6 mil large heavy-duty powder-free diamond-textured gloves to complete the task. Great for tackling jobs in the automotive, industrial, or janitorial industries, these 100% latex-free, heavy-duty gloves are thicker than standard latex gloves to resist wear and tear. The fully diamond-textured exterior provides extra grip in wet and dry conditions. These 6 mil thick heavy-duty gloves provide exceptional puncture, tear, and chemical resistance while maintaining the tactile sensitivity of comparable latex exam gloves.

These powder-free gloves have an ambidextrous style, allowing the gloves to be worn on either hand for added versatility. By stocking a variety of glove sizes, you can be sure all employees will be able to complete their tasks with ease and efficiency. The perforated box doubles as a dispenser, keeping things orderly in your space. Plus, these gloves feature a distinctive orange color that provides clear visibility in dim environments and allows you to designate them for specific tasks.
