

Beacon Light Floodlight

Compact, Versatile, Portable.

The Beacon Light is the only portable LED floodlight on the market that is built strong enough to withstand the toughest environments without compromising on high-quality light output. This innovative floodlight projects a wide, shadow-free flood of crisp bright white light generated via a 40W LED integrated chip, which is solid-state and can therefore endure shocks, vibrations and rough handling without breaking the LEDs. The Beacon will provide an instant start in even the coldest locations, and the unit remains cool-to-the-touch even if left running for days.

KEY FEATURES

- As bright as a 500W quartz halogen
- Low energy usage
- No bulb replacement required.
- AC & DC voltages available.
- IP65 weatherproof rated.
- Instant start-up, at full output, even in cold temperatures.
- Cool to the touch, even if left running for extended lengths of time.
- Durable cast aluminum housing and polycarbonate lens

KEY BENEFITS

- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Energy saving device for a greener footprint.
- Extremely versatile light for multiple applications.

INDUSTRIES

- Construction
- General industry
- Mining
- Utilities
- Fabrication workshops
- Tank manufacturing/ maintenance
- Fire & emergency services

SPECIFICATIONS	
VOLTAGE	90-227V
WATTAGE	40W
LIGHT TEMPERATURE	4500K (bright white light • no blue tint)
LUMENS	5945 lumens
LIGHT EXPECTANCY	50,000 hours of 24/7 use
CONSTRUCTION	Cast aluminum housing with polycarbonate lens
DIMENSIONS	8lbs • 7.25"H x 9"W x 5.25"D
WEATHERPROOF RATING	IP65
APPROVALS	cETLus
