

BATTERY OPERATED BEACON HEAVY DUTY LED FLOODLIGHT

Just because you are working a remote location, are in a job site without power, or have to enter a tight space where cords could be dangerous, it shouldn't mean that you have to compromise on lighting your work area.

Using the newest LED technology, the 30W battery powered Beacon Light puts out the same amount of usable light on your work site as a 300W quartz halogen, without needing to be plugged in.

Perfect for emergency services and first responders, eliminate the need to run long extension cords in hard to reach areas with the LE965LEDC. Ideal for salvage and overhaul operations, firefighters prefer the LE965LEDC instead of being limited to small flashlights or inconvenient quartz halogen lights.

The battery powered Beacon Light is a truly bright floodlight that will illuminate an entire scene and doesn't require bulbs or a power cords which provides a safer work environment, increases efficiency and saves money.

KEY BENEFITS

- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Extremely versatile light for multiple applications.

INDUSTRIES/APPLICATIONS

- Construction
- Maintenance
- General contractors
- Emergency response
- Military

SPECIFICATIONS	
Bulb Type and Rating	High output integrated 30W LED array. Rated for over 50,000 hrs.
Light Output	4,000 Lumens
Charge Time	5 hours
Working Time	4 hrs at 100%, 8 hrs at 50% & 26 hrs at 15%
Voltage Rating	120V AC (charger)
Light Temperature	4,500K (bright white light - no blue tint)
Construction	Cast aluminum housing, powder-coat yellow paint.
Weight	8 lbs.
Battery Indicator	3 step indicator: Green, yellow & red
Approvals	cETLus • IP65 Weatherproof.

KEY FEATURES

- Cordless & rechargeable.
- Light output equivalent to 300W quartz halogen.
- Low energy usage.
- No bulb replacement required.
- IP54 weatherproof rated.
- Instant start-up, at full output, even in cold temperatures.
- Cool to the touch.
- Durable cast aluminum housing.
- Extended lifetime (50,000 hours or 24/7 use for 5 years).
- Directional light emission (all light emitted is directed on work area).
- All models feature battery or plug-in operation modes.
- Replacement batteries available.

Available with various mounting options for any application:

- CLAMP
- TRIPOD
- FLOOR STAND
- MAGNET MOUNT
- DUAL-HEAD TRIPOD

LE965LEDC-TR
TRIPOD MOUNT

LE965LEDC-FS
HEAVY DUTY FLOOR STAND
