OP-927 TENSION LINK SCALE

TUFNER's Tension Link System is designed as a stable, reliable and high accuracy scale to measure the force in your tension line. This scale system can withstand harsh environments and is suitable for tension applications like hanging crane scales, lifting systems and winching. There are openings on both ends of the alloy steel load cell which allow you to connect hooks, shackles, wire ropes, or whatever your rigging needs may be. Our scale is available in capacities ranging from 10,000-200,000 lbs.
