

COUNTERTOP ELECTRIC RANGE

FEATURES

- Pegasus Countertop Electric Ranges are the ultimate solution for heavy-duty cooking. Featuring spill-proof, 9" solid-top burners, these hot plates provide even-heat distribution and quick heat-up times --ideal for soups, sauces, stews, pan-frying, and sautéing.
- Built with heavy-duty stainless steel, these hot plates offer durability for professional kitchens. Choose from three models with 2, 4, or 6 powerful elements (each 2 kW) to suit your needs. Each element includes a built-in thermo-protection device to prevent overheating. They operate at 208/60/3P for efficient performance and can be converted to single-phase in the field.
- Heavy duty stainless steel construction.
- Available in 3 sizes: 2, 4 or 6 burners with 4kW, 8 kW or 12 kW electric power, respectively.
- Solid, 9" (2 kW) cast-iron alloy burners.
- Six-position temperature controls that range from simmering to boiling.
- Heating elements with built-in thermo-protection.
- Adjustable legs.
- One-year limited parts & labor warranty (USA & Canada only).
