This unit is gas-fired. A 30 lb. tank will do approximately 13 hours of cooking at a temperature of 300-325 degrees.

Photos may include options. Items listed in the "Features" charts are included in the base price.

Meadow Creek Welding uses only food-grade T304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to grates, racks, shelving, work surfaces, and complete units constructed primarily of stainless steel and sold using that description.
