Notes & Details

Easily transport a wide variety of mid to large sized items with this Regency 24" x 24" two shelf 16-gauge 430 stainless steel utility cart! The spacious shelves are made of 16-gauge type 430 stainless steel that will not only support heavy product without fear of buckling, but are also extremely simple to clean. With a 25" clearance between shelves, you will have no problem fitting larger objects on the cart. The spacious shelves are bound to meet the unique needs of your operation, and the solid design allows them to accommodate smaller items that may slip through the cracks of comparable carts with wire shelves.

The 250 lb. capacity per shelf is perfect for transporting multiple ice buckets throughout your facility! The stainless steel handle combines with (4) 5" swivel plate casters to make maneuvering this cart a breeze. When the cart isn't in use, the two back casters come with brakes to hold the unit securely in place. It ships knocked down for savings on shipping and is incredibly simple to assemble.
