Notes & Details

Keep your ice cream dippers squeaky clean and ready to scoop at all times with this Regency 15" ice cream dipper well and faucet set. This dipper well provides a constant supply of fresh rinse water that helps prevent flavor transfer between ice cream flavors and cross contamination risks. It is made of durable, corrosion-resistant 18 gauge type 304 stainless steel for a long product life. Inside the bowl are two welded dividers to keep your scoops organized.

Thanks to its pre-drilled top mounting panel and the included stainless steel bottom mounting angle, this dipper well attaches easily to the side of your ice cream dipping cabinet. The faucet comes included for easy filling of the dipperwell and to provide a constant flow of fresh rinse water for your ice cream scoops. This model also comes with a 1" drain and a removable overflow pipe to help prevent messy spills and accidents.
