Notes & Details

Perfect for busy commercial kitchens, this Regency wall mount faucet with 3 1/2" swivel gooseneck spout is an excellent choice when you need a reliable, affordable water fixture for your facility! Designed to be easy to install and easy to maintain, it's easy to see why Regency faucets are a great solution for any business. Thanks to a 3 1/2" long and 8" tall swivel gooseneck spout, this faucet delivers water exactly where you need it. The hinged design provides excellent functionality for filling pots and pans, and it can be folded out of the way when not in use.

Water exits the faucet with a 2 GPM flow rate, which creates a soft flow pattern with minimal splashing. The faucet installs on your wall or sink backsplash on a pair of 4" centers and connects to the facility water lines with a set of 1/2" NPS inlets. The faucet body is made from chrome-plated brass that complements nearly any design aesthetic, and the water flow is controlled by a pair of wrist blade handles. An installation kit is required for setup (sold separately).
