

Regency Open Powder-Coated Steel Hose Reel with 35' x 3/8" Hose

#600HRPC35NS

Technical Data

Length	17 3/4 Inches
Width	8 1/16 Inches
Height	20 Inches
Hose Length	35 Feet
Hose Interior Diameter	3/8 Inch
Application	Air Water
Color	Black Blue
Features	Corrosion-Resistant

Features

- Corrosion-resistant, powder-coated steel reel houses 35' hose
- Reinforced steel-stamped guide arm reduces angular pull and ensures precise control
- Multi-position release ratchet spring allows for locking at preferred length
- 4 non-snag direction rollers reduce hose wear abrasion
- Prevents reverse winding to eliminate the chance of potential damage

Technical Data

Included	Hose
Inlet Size	3/8 Inch
Material	Powder Coated Steel
Maximum Pressure	300 PSI
Maximum Temperature	140 Degrees F
Minimum Temperature	-4 Degrees F
Mounting Style	Surface Mounted
Pressure	Low
Return Style	Retractable
Style	Open
Type	Hoses Reels

Notes & Details

Equip your business with this Regency hose reel and 35' hose. Perfect for a variety of settings, this hose reel is designed to keep your hose within easy reach so you're able to service every area of your workstation safely and efficiently. With a 35' long hose and simple installation, it makes storing and handling your hose easier than ever. It has a 3/8" inner diameter, and it is rated at 300 PSI. This versatile hose reel is the ideal solution for your janitorial location or commercial kitchen!

For simple mounting, this reel features a multi-fit bracket. The base is built to mount on a wall, ceiling, or floor for quick and convenient access. This spring-driven hose reel can be located precisely where you need it and is designed for both air and water applications. This design is just what your facility needs to distribute water or air to the right places.

The hose is housed on a powder-coated, corrosion-resistant steel reel for durable use. The reinforced steel-stamped guide arm reduces angular pull, ensuring precise control over the direction of the hose. This reel also has four non-slag direction rollers that reduce wear to maintain the integrity of the 35' rubber hose. The fully-enclosed, multi-position release ratchet spring allows you to lock the hose at your preferred length, which prohibits reverse winding and helps prevent damage to the unit.
