

Regency Open Stainless Steel Hose Reel with 35' x 3/8" Hose and Heavy-Duty Front Trigger Water Gun

#600HRSS35FWG

Technical Data

Length	20 19/32 Inches
Width	8 3/8 Inches
Height	21 1/2 Inches
Hose Length	35 Feet
Hose Interior Diameter	3/8 Inch
Application	Air Water
Features	With Hose
Flow Rate	5 GPM
Inlet Size	3/8 Inch

Features

- Durable stainless steel reel houses 35' hose
- Adjustable guide arm ensures precise control
- Locking mechanism allows for locking at preferred length
- 6 3/4" wide L-shaped base has groove reinforcement to ensure stability
- Includes a heavy-duty front trigger water gun with a flow rate of 5 GPM

Technical Data

Material	Stainless Steel
Maximum Pressure	300 PSI
Maximum Temperature	140 Degrees F
Minimum Temperature	-4 Degrees F
Pressure	Low
PSI	300 PSI
Return Style	Retractable
Spray Valve Style	Standard
Sprayer	With Sprayer
Style	Open
Type	Hoses Reels

Notes & Details

Equip your business with the Regency open stainless steel hose reel with a 35' hose and front trigger water gun! The reel is constructed entirely of stainless steel to ensure safety and durability in high-demand environments such as food and chemical industries. It is designed for air and water applications, and it has a 35' hose with a 3/8" inner diameter. This model also comes fully equipped for operation with a heavy-duty front trigger water gun.

The 6 3/4" wide L-shaped base has groove reinforcement to ensure stable use, while the adjustable guide arm offers multiple positions to fit a variety of needs. This allows for easier field adjustment and more precise control. The reinforced steel-stamped flange adds additional strength to the reel, while the spring reducer prevents wear to maintain the integrity of the hose. Additional features include the swivel joint that prevents leakage, and the hose stopper that can automatically stop the retracting hose. This unit has a 3/8 inlet / outlet and it is rated to 300 PSI.
