

Regency Feet for Shelving Posts - 4/Pack
#460ADJFEET

Technical Data

Post Diameter	1 Inch
Accessory Type	Feet
Type	Feet

Features

- Direct replacement for original part
- Fits all Regency stationary shelving posts
- Can be used with a nut (sold separately) to make a Regency mobile shelving post stationary
- Provides a stable base for your shelving
- Adjusts to level the shelving unit

Notes & Details

These Regency feet serve as a direct replacement for the ones that came standard with stationary Regency shelving posts. Each foot adjusts so that you can set your shelving at the preferred height and account for any minor variations in floor slope, creating a stable, level storage solution. When paired with the appropriate nuts (sold separately) for your shelving post type, you can also make a mobile post stationary.
