Notes & Details

Maximize your storage space with this Regency NSF black epoxy take-out shelving station with 5 shelves and PVC shelf mat overlay. This unit is perfect for use in your retail store, restaurant, warehouse, or hospital, and it is ideal for equipping your take-out and online order stations. Its epoxy coating offers corrosion resistance for long-lasting durability, which makes it suitable for humid or moist environments such as walk-in coolers and warewashing areas. The PVC shelf mat overlay creates a smooth, solid surface that keeps your shelves sanitary and safe. The eye-catching signage says "Mobile Order Pick Up" and can be mounted on the shelving with included fasteners, and a label holder is included for each shelf. A great way to add a convenient storage solution to a wide variety of operations, this shelving kit offers the reliable performance you need and demand!

Each of this unit's (5) 18" x 36" shelves can hold up to 600 lb. of evenly-distributed weight. This strength and durability make it the perfect place for storing bulk ingredients and heavy supplies. Plus, the high weight capacity helps the shelf accommodate business growth as storage needs evolve and product inventory expands. The shelves can be adjusted to accommodate products or equipment of varying shapes and sizes with the help of this unit's (2) 64" stationary posts and (2) 54" stationary posts. The open design of this unit, coupled with the ability to move shelves to different heights, facilitates ventilation and maximizes air flow between and around products. 20 pairs of split sleeves are included. (2) S hooks and a hanger rail are included. Assembly is required.
