Notes & Details

Keep your storage area organized with the commercial-grade Regency 21" x 48" NSF black epoxy 4-shelf kit! This NSF black epoxy shelf kit includes (4) 21" x 48" wire shelves and (4) 64" posts, each with a sleek black color and simple, classic design that's excellent for use in retail environments. It's also a convenient storage solution for your janitorial closet, warehouse, or walk-in cooler. This easy-to-install kit can be quickly assembled once it arrives so that you can begin using it immediately! For maximum versatility, the black epoxy coating allows for use in either dry or moist environments, making the unit a commercial-grade, multipurpose investment that's sure to accommodate your ever-evolving needs.

Each shelf features a wire construction, which allows for proper air flow around the stored supplies, products, or ingredients. They're adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

This unit comes with 16 pairs of split sleeves, and because it includes casters, this particular unit provides the benefit of mobility, making it easy to move aside for thorough cleaning. Assembly is required.
