Notes & Details

Maximize your establishment's storage and display space with this Regency 18" x 24" chrome 4 shelf kit! This kit includes (4) 18" x 24" shelves and (4) 64" posts to create a convenient storage solution for your retail store, restaurant, warehouse, or hospital. Its durable, chrome-plated metal construction ensures long-lasting use in your establishment.

This unit features 4 wire shelves that provide easy accessibility to all of your stored items. With an open wire design, these shelves ensure proper air flow around your stored supplies, products, or ingredients. They're adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. Each shelf can hold up to an impressive 600 lb. of evenly distributed weight, making it the perfect place for storing bulk ingredients and heavy supplies.

A set of (4) 5" stem casters is included for easy mobility, and each caster features a brake to ensure secure, stationary use. With its high-quality, commercial grade design, this unit is sure to deliver the reliable performance every business expects and needs!
