Notes & Details

Ensure that your finest wines and liquors are safely stored with the Regency 24" x 48" NSF stationary chrome wire security cage kit! Not only will you be protecting your products from damage or theft, but you'll also be optimizing storage space in your wine cellar or kitchen!

The chrome construction gives this security kit excellent durability, while also being easy to keep clean and sanitary. This unit is for use in dry environments with low humidity, making it perfect for storing your finest wines, bulk goods, or even heavy prep tools. In addition, an open wire design minimizes dust accumulation and provides increased visibility of the unit's contents, ensuring easy cleaning and organization. And, for added convenience, the space between the shelves is adjustable, giving you the flexibility to store items of varying heights with ease.

Each shelf boasts a 600 lb. weight capacity, which offers you the ability to store virtually anything you wish in this secure, reliable unit. And, thanks to the knock down posts, assembling or disassembling this unit is easier than ever! Because the posts conveniently unscrew in the middle, they form two smaller halves that are easier to move. When you'd like to reassemble them, you'll only need a rubber mallet, and the convenient inch markings allow you to remember your preferred shelf spacing.

Kit Includes:

- (4) 24" x 48" shelves
- (4) 74" knock down posts
- (1) security cage
