Notes & Details

Upgrade the storage in your establishment with this Regency 14" x 36" 12 shelf black epoxy wire wine rack with 74" posts. The quality and taste of wine can be altered if it's not properly stored, which is why this rack is an essential product for your restaurant, bar, vineyard, club, or lounge. Not only is this rack durably constructed from metal materials, but it's also specially shaped to hold bottles at the proper angle for storage. This all-inclusive kit comes with 48 pairs of split sleeves, 4 stationary posts, and 12 shelves, allowing you to quickly put it together straight out of the box.

The shelves on this unit are grooved to hold bottles securely on their sides and prevent them from sliding around. This feature allows you to display your bottles in a visually-appealing way. Additionally, all of the shelves are slanted downward, so the bottles' corks won't dry out and crack. This design also prevents air exposure and promotes flavor retention.

This rack has 12 shelves for holding and organizing your red, white, and blush wines. Each shelf can accommodate up to (8) 750 mL bottles, giving the entire unit a 96-bottle capacity. Thanks to its durable wire construction, this unit will provide you with years of long-lasting use. Plus, its black epoxy coating gives it a sleek look and extra protection for placement in humid / moist environments. The vented design enables proper air circulation, so it won't collect dust as quickly. Complete with attached leveling feet, this product can easily adjust to accommodate uneven surfaces. This unit is not compatible with casters.

- Kit Includes:**
- (4) 74" NSF black epoxy posts
  - (12) 14" x 36" shelves
  - (48) Split sleeves
