Notes & Details

Easily store a wide variety of goods in your stockroom, warehouse, garage, or even merchandise items in retail applications with this Regency 30" x 36" NSF chrome wire shelf. Since this shelf has a sleek chrome finish, it is the perfect choice for use in any dry storage or display environment with minimal humidity. Able to accommodate an impressive 600 lb. of evenly distributed weight, this shelf can be used for displaying everything from lightweight boxes of pastries to heavier items like cans of ingredients.

The shelf's wire construction does a great job of allowing proper air flow around your stored supplies, which is especially important in ensuring the maximum shelf life possible. This shelf may be added to existing shelving units that you already have and it also fits on any Regency shelving posts if you wish to create a customized shelving system. When used as part of a shelving unit, this shelf is adjustable so you can accommodate different sized products.
