## Notes & Details

What's the best type of shelving for your walk in refrigerator? Regency epoxy coated wire shelving is NSF approved and rust-resistant, making it ideal for moist environments like walk in fridges and freezers! This 12" x 54" green epoxy-coated wire shelf from Regency is made with 1 super heavy truss. The shelf is constructed of zinc-plated wire with a green epoxy coating that is great for use in all environments including refrigerators, freezers, and ware washing areas.

When combined with additional shelves, posts, and accessories (sold separately) this Regency shelf is capable of holding up to an impressive 450 lb. of evenly distributed weight. The high-quality, commercial grade construction of this shelf delivers the reliable performance every business expects and needs.
