### Certifications

## Technical Data

Usage

All Environments  
Dry Environments  
Kitchens  
Moist Environments  
Walk-Ins

## Notes & Details

This Regency three-sided green epoxy frame for wire shelving dunnage racks adds extra stability to your shelving unit. The three-sided design attaches to all four posts of your shelving unit to make sure that your storage unit is strong and secure, no matter how much you need to store. The green epoxy finish is ideal for moist storage environments like cold storerooms, walk-in refrigeration units, and dish rooms since it is rust resistant.
