Notes & Details

Enhance the versatility of your storage shelving units with this Regency 5" screw-in caster with brake. Designed for use with Regency stationary posts (sold separately), this caster has a durable construction that can support up to 150 lb., allowing you to effortlessly transform your stationary shelving unit into a mobile one. The convenient screw-in design makes installation quick and easy, ensuring that you can adapt your storage solution to meet your changing needs without any hassle. Whether you need to move your shelving unit for cleaning purposes or to reconfigure your storage space, this caster provides the flexibility and convenience you require.

The inclusion of a brake feature ensures that your shelving remains in place when needed, providing stability and security for your stored items. Perfect for warehouses, restaurants, and other commercial settings, this caster offers a simple solution for creating a mobile storage system that can be easily maneuvered to accommodate your workflow. Upgrade your stationary shelving units with this 5" caster to maximize efficiency and adaptability in your workspace.
