- Rack features 5" polyurethane swivel casters (2 with brakes)
- Ideal for storing and transporting meat or other foodservice products
- Kit includes mobile aluminum lug rack and 6 blue meat lugs / tote boxes

Notes & Details

This Regency mobile aluminum lug rack with blue meat lugs / totes provide everything you need to transport large quantities of meat, produce, or other raw ingredients from your storage area to your prep area! Designed to hold up to 6 lugs, this rack will fit a variety of businesses' needs, whether that be food items or a lug of dirty flatware or glasses, and easily move your supplies wherever you need them. This rack is made of 16 gauge 1" x 1" aluminum tubing with 14 gauge angle slides welded to the frame to enhance its overall durability. It can hold up to 400 lbs. and features 6 shelves with 9" of clearance between each for exceptional storage capacity. The 5" polyurethane swivel casters provide full range of motion making for moving through tight areas much easier. A braking mechanism comes on two of the casters to prevent unwanted movement during loading and unloading of the lugs.

To ensure that your raw meat or other foodservice products are properly organized and stored, this kit includes 25" x 15" x 8" blue meat lugs / tote boxes. Featuring dependable high density polyethylene construction, these items are designed for everyday use in high-volume environments. They also boast reinforced rims for additional strength, which guard against chips or cracks. These items can even be integrated into a color-coded system, where different color boxes are designated for use with specific cuts of meat or other foodservice products. This ensures superior organization while reducing the risk of cross-contamination. This box's blue color is commonly used for seafood to help your chefs comply with the USDA's Hazard Analysis and Critical Control Point (HACCP) program. Plus, the containers can cross stack or nest together with similar-sized tote boxes to help save valuable storage space.

Designed to expand the functionality of your food storage operation, the lug offers a versatile temperature range that's ideal for a variety of applications, which reduces unnecessary handling. It's perfect for refrigerating whole meats in your busy deli shop or grocery store. It's also great for storing processed beef, pork, or chicken in your large industrial freezer. This item even works well for holding dry ingredients or for transporting dinnerware and serving utensils around your next catered event. Additionally, its smooth interior surface and wide corner radius enable fast, easy cleanup!

Kit Includes:

- (1) Regency Mobile aluminum lug rack - 6 lug capacity - unassembled
- (6) Choice 25" x 15" x 8" blue meat lugs / tote boxes
