Notes & Details

Perfect for banquets and catering operations of any size, the Regency 22" x 22" x 7 1/2" aluminum glass rack dolly with bumpers makes it easy to move racks of glasses both quickly and easily. This versatile dolly holds standard 20" x 20" glass racks for effortless transport and storage. The unit boasts a one-piece, non-corrosive aluminum construction, and it can hold up to 880 lb. of evenly distributed weight to withstand high-volume use in any environment. Protect your walls against damage from the dolly with the included plastic bumpers. This dolly features a welded construction and ships fully assembled, so you can start using it right away!

Your floors will especially benefit from the 5" non-marking casters, and the operator will appreciate their smooth design to make moving the rack even more efficient and speedy when navigating through a room full of tall racks storing dishes and glasses. Because there's no handle, this dolly fits underneath most tables for convenient storage of unused glasses, helping you save space and be ready to roll whenever you need! This Regency glass rack dolly will be a welcome addition for your catering and serving staff.
