Type	Shelving Kits

Notes & Details

Maintain an organized industrial space with this Regency 24" x 36" x 74" wire shelving unit with 44 blue bins. This wire shelving unit is great for use in dry storage and heated environments. It is an ideal solution for organizing supplies, tools, or even employees' belongings - perfect for helping to keep your store room, packing area, or warehouse orderly. It includes 12 shelves, 4 posts, and 44 blue injection-molded polypropylene bins, all of which are made to commercial grade specifications to withstand industrial conditions and for your business's long-lasting use. The NSF shelving unit is made of a durable, chrome-plated metal with a clear epoxy coating. Each shelf can hold up to an impressive 600 lb. of evenly distributed weight. Plus, each shelf comes with 4 pairs of split sleeves for quick and easy setup and installation.

The included high-density, injection-molded shelf bins are designed to withstand the rigors of industrial environments, feature a highly durable polypropylene construction with reinforced edges, and are impervious to most chemicals. Each bin features a molded-in label holder for clear and easy labeling, as well as a built-in rear hanglock that allows each bin to remain attached to the shelving unit while fully tilting out for complete access to the bin's contents. This bin's wide hopper front design also makes it easy to see and grab what it holds. With 44 blue polypropylene bins, this Regency shelving unit offers plenty of storage space to keep your working environment tidy and efficient.

Kit Includes:
- (4) 74" NSF chrome posts
- (12) 36" x 24" NSF chrome wire shelves
- 44 blue polypropylene bins
