Notes & Details

The Regency 42" beer drip tray is the perfect addition to your bar service area! It is ideal for placing under beer taps and makes for a great spot to temporarily sit a drink after it is poured so that any overflow is caught and collected. This rail is designed to be mounted to the underside of a wooden bar or shelf.

Made of 18 gauge type 304 stainless steel, you can expect a tough and durable composition, as well as the benefit of being non-corrosive. The perforated top grate features 3/8" drain holes and is removable for easy cleaning and maintenance. Featuring 12 pre-drilled mounting holes, this rail is designed to be mounted to the underside of a wooden bar or shelf. A 1/4" NPT drain allows any liquids to flow out of the rail, preventing overflows onto the floor or counter.
