Notes & Details

Clear glassware or wash hands while keeping ice stocked and ready nearby with this Regency 21" x 18" stainless steel drop-in hand sink with ice bin. It's perfect for behind-the-bar use. This combination sink and ice bin features a durable type 304 stainless steel construction. Durable, the 8 1/2" x 11 1/2" hand sink bowl is constructed of 18 gauge stainless steel.

Maintain cleanliness behind your bar while also keeping ice within reach. This sink drops down into a cutout in your existing countertop so that it doesn't take up additional wall space. It also has a sleek, professional look! It has 4" centers, too. With both hot and cold water capabilities, this drop-in sink is a practical solution in a variety of settings.

The 9 3/8" x 14 3/4" x 11" ice bin is equally durable, an attractive 20 gauge stainless steel construction that looks great at your bar or pub, and it's easy to keep clean. Stainless steel is also an excellent material for retaining cold temperatures, making it perfect for ice storage. The included sliding lid provides further cold retention and protects ice from dirt and other contaminants. This sink includes a 1 1/2" IPS sink bowl brass drain connection.
