600KNEEVALVE

#### **Notes & Details**

Maintain a sanitary environment in your restaurant, stadium, or manufacturing facility by providing a convenient way for people to quickly wash their hands with this Regency single-hole multi-station hand sink with two wall-mounted faucets! Made of rugged 16 gauge type 304 stainless steel, this sink is rust- and corrosion-resistant. It's extremely durable and built for everyday commercial use.

Perfect for industrial applications, the advantage of a multi-station sink is that employees don't have to wait their turn to clean up. This extra wide sink bowl will allow up to two people to use the sink at a time, reducing the amount of time people have to wait in line. This helps to maintain cleanliness in your business and prevent the spread of germs, keeping your employees healthy.

This free-standing sink station includes two knee-operated faucets that easily mount to the single holes on your sink. The chrome-plated brass faucets come with single pedal knee valves and hardware that allow for hands-free use. Each knee valve features a 3/8"-18 NPT inlet and outlet. The unit's 6" long x 9 13/16" tall swivel gooseneck spouts provide the right amount of clearance for handwashing. They deliver a flow rate of 2 GPM and a maximum temperature of 140 degrees Fahrenheit. The unit is also equipped with a spacious 8" deep sink bowl that is designed to accommodate multiple users for handwashing applications.

The unit's legs are made of stainless steel, and they feature bullet feet that offer 1" of adjustability for convenience. A  $3\,1/2$ " high backsplash protects your walls from splashing and water damage. Plus, the included  $3\,1/2$ " drain basket keeps your drain clog-free. This unit comes with a  $1\,1/2$ " IPS drain connection. For safety, the outer edge of the sink bowl is curled under to eliminate any sharp edges.

#### Kit Includes:

- 48" x 17 1/2" multi-station hand sink
- (2) Wall-mounted faucets
- (2) Single pedal knee valves
- (2) Knee valve brackets and hardware
