Notes & Details

Provide a handwashing station at your food truck, outdoor catering event, or festival with this Regency space saver single bowl hot and cold water hand sink cart! This sleek-looking, space-efficient stainless steel cart includes a soap and paper towel dispenser for a proper sanitation station. Featuring a 5 gallon removable fresh water tank and a 7.5 gallon waste water tank for self-contained operation, this unit has a water inlet connection that can be hooked directly to a 3/4" standard garden hose connection or draw from the portable water tank for ease of use. A deck-mounted faucet (sold separately) is required for use.

Designed to supply hot and cold water, this unit uses a 2.5 gallon water heater tank to provide hot water for a more sanitary and comfortable handwashing experience. This cart boasts an 18 gauge, 304 stainless steel body with a lock and key swing door so you can store away backup supplies without worry of them being taken. Plus, this sink cart ships fully assembled so that it's ready to use right away. The water heater and pump require a 120V electrical connection for operation.
