Notes & Details

This Regency 36" 16 gauge stainless steel one compartment commercial utility sink is a great economical choice for an array of establishments. It's constructed from sturdy, 16 gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. It also boasts a 13" deep bowl perfect for accommodating larger items such as mop buckets. A 1 1/2" IPS drain and a convenient strainer basket come standard with this unit.

With one compartment, you can utilize the space in your kitchen to create an efficient workflow. An 8 3/4" tall backsplash is included to protect your walls and it comes complete with two holes punched on 8" centers for a wall-mounted faucet (sold separately). The legs are constructed of galvanized steel with bullet feet with 1" of adjustability so you can install this sink to best fit your needs. This unit is ideal for a variety of janitorial and commercial kitchen applications.
