Notes & Details

Outfit your facility with a long-lasting sink with this Regency 39" stainless steel two compartment sink. It's constructed from high-quality, 16-gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18-gauge type 430 stainless steel. It's dipped a minimum of 1/4" to facilitate better drainage, and the welded construction contributes to the long-lasting use and overall strength of this sink.

The 12" deep bowls are die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, each bowl includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, each compartment has rounded corners so you can rinse and wipe down the sink.

A 9" tall backsplash is included and comes complete with (2) 1 1/8" diameter holes punched on 8" centers to accommodate 1 faucet (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. This model has galvanized steel legs and adjustable plastic bullet feet to keep the sink level and stable.
