Notes & Details

Outfit your facility with a long-lasting sink with this Regency three compartment stainless steel corner sink with two drainboards. Featuring three compartments, the sink is perfect for dishwashing applications, with one 14" x 14" x 14" sink for each of the three stages of the washing process. Plus, the corner design helps maximize your back-of-house space and create an efficient layout. One left 14" and one right 14" drainboard are built into the unit for added convenience.

Made of durable 16 gauge, 304 type stainless steel, the sink is sure to withstand constant use in a bustling commercial environment. The metal won't rust or corrode, nor will the stainless steel legs, sockets, or bullet feet. For added structural strength, the legs include H-shape cross braces; these ensure that all parts of the corner unit are properly supported at all times.

Faucet holes are punched into the metal on 8" centers to accept a splash mount faucet (sold separately), and a 3 1/2" drain basket is included for easy cleaning.
