Notes & Details

Outfit your facility with a long-lasting sink with this Regency three compartment sink. Featuring three compartments, this sink is perfect for dishwashing applications, with three 14" x 16" x 12" sink bowls for each of the three stages of the washing process. Two 12" drainboards are built into the unit for added convenience. They provide the space needed for drying pots, pans, and dinnerware.

Made of durable 16 gauge, type 304 stainless steel, the sink is sure to withstand constant use in a bustling commercial environment. The metal won't rust or corrode, nor will the galvanized steel legs and sockets. For added structural strength, the legs include H-shaped braces that ensure that all parts of the corner unit are properly supported at all times. A set of plastic bullet feet provides stability. Faucet holes are punched into the metal on 8" centers to accept a splash-mount faucet (sold separately). A 3 1/2" drain basket is included to help collect excess waste, eliminating the possibility of clogging. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
