Notes & Details

Outfit your facility with a long-lasting sink with this Regency three compartment stainless steel sink. Featuring three compartments, the sink is perfect for dishwashing applications, with one 18" x 24" x 14" sink for each of the three stages of the washing process.

Made of durable 16 gauge, 304 type stainless steel, the sink is sure to withstand constant use in a bustling commercial environment. The metal won't rust or corrode, nor will the stainless steel legs and sockets. For added structural strength, the legs include H-shape braces; these ensure that all parts of the corner unit are properly supported at all times. A set of stainless steel bullet feet provide stability.

Faucet holes are punched into the metal on 8" centers to accept a splash mount faucet (sold separately). For your convenience, a 3 1/2" drain basket is included for easy cleaning.
