Notes & Details

This Regency 24" x 72" stainless steel commercial work table with undershelf is a great addition to busy commercial kitchens. Made from durable, easy-to-clean 16-gauge 304-series stainless steel, this work table offers superior corrosion resistance and durability compared to other work tables in this price range. Due to its all-stainless steel construction, it's built for medium-duty kitchen tasks such as cutting fruits and vegetables.

The adjustable undershelf is made of 18-gauge, 430-series stainless steel and secured with set screws. With the ability to hold up to 600 lb. of evenly distributed weight on the top shelf and 380 lb. on the undershelf, this work table provides additional storage for ingredients and supplies in one convenient location. Plus, a height of 34" allows you to create a comfortable work station for your employees. For increased stability, the legs of this work table are 1 5/8" in diameter and are made of tubular stainless steel with casters to make it mobile.
